Employees Requesting Leave for the 2013-2014 School Year

The following tenured employees are seeking the Board of Education's approval for a leave of absence for 2013-2014 consistent with Board Policy GCBDB, Professional Staff Long-Term Leaves and Absences. These requests have been made in writing and are supported by the building administrator and the Human Resources Office.

Consideration of New Position

☐ Action Item
☐ Report/Discussion Item

Overview

Authorization from the Board is sought for the following positions.

Braille Transciber

Students with significant visual impairments or blindness require that materials are transcribed and tactile graphics prepared so students have timely and full access to the curriculum. Currently, students are being served in elementary and middle school buildings. Although this field uses a variety of technological transcription systems, certain materials and curriculum types demand hand preparation and transcription. This position requires knowledge and skill with braille production systems with direct interaction with students and teachers. The recommended salary is $30,000 and placement on the Secretary 11 calendar in order to support students through summer school. Portions of FTE were used to fund this position, so the impact on the operating budget is $5,000.

Speech Language Pathology-Assistant (SLP-A)

Due to the continued supply/demand issues in filling speech/language pathology (SLP) positions in the schools, DESE created a new position in conjunction with the Missouri Board of Healing Arts to replace the former speech implementor model. The speech implementor model was used when a SLP could not be hired. This model has specific educational and supervision requirements and a registration credential. Just as the speech implementor model, the position is on the teacher salary schedule and calendar. This position is budget neutral as existing FTE was used when filling positions.

Internship/Community Supervisor

As part of the School Improvement Grant for Douglass High School, this position was designed to promote career and character readiness for students and build partnership with community stakeholders to promote employment. The position is based upon the school calendar and is eligible for substitute certification. The cost of this position is $45,900 for salary and benefits, which is covered by the grant. In the future, it is anticipated that the costs of this position will be shared via community partnerships with Rotary as the impact data is reviewed and decisions regarding need and continuation are determined.

IITS Computer Technician/Instructional Aide

As part of the School Improvement Grant for Douglass High School, this position was designed to provide direct support to teachers and the Director for technology software and equipment to promote the effective use of technology. This position is designed as a 12-month, hourly position based upon the existing IITS Support Staff Salary Schedule, which has a compensation range of $16.35 to $25.67 based upon training and experience. The cost of this

position with salary and benefits is estimated to be $50,990 and will be covered by the grant. Need and sustainability considerations will be made as impact data is evaluated.

Recommendation

Support the addition of these positions with the necessary budget amendments, which is specified on the budget amendments prepared by Mrs. Quinley.

Materials Preparation and Inquiries

This item was prepared by Dr. Dana Clippard, Assistant Superintendent for Human Resources. Inquiries about this item or requests for additional information should be directed to Dr. Clippard (214-3423).
